18. (Original) The system of claim 13 wherein said input device is a foot-input device.

19. (Amended) The system of claim 13 wherein said medical imaging device is an ultrasonic medical imaging device.

20. (Amended) A method for controlling a function of a medical device, said method including the steps of:

receiving a first verbal command from an operator;

selecting a function in response to said first verbal command;

receiving a second verbal command from an operator;

assigning said function to an input device console in response to said verbal command commands; and

controlling said function assigned to said input device ~~in response~~
~~to said verbal command~~ when said input device is activated by an operator.
